

Democratize Your Data

Analytics for Everyone. Analytics from Anywhere.

Arbutus Analytics | Platform

The Engine That Powers Change

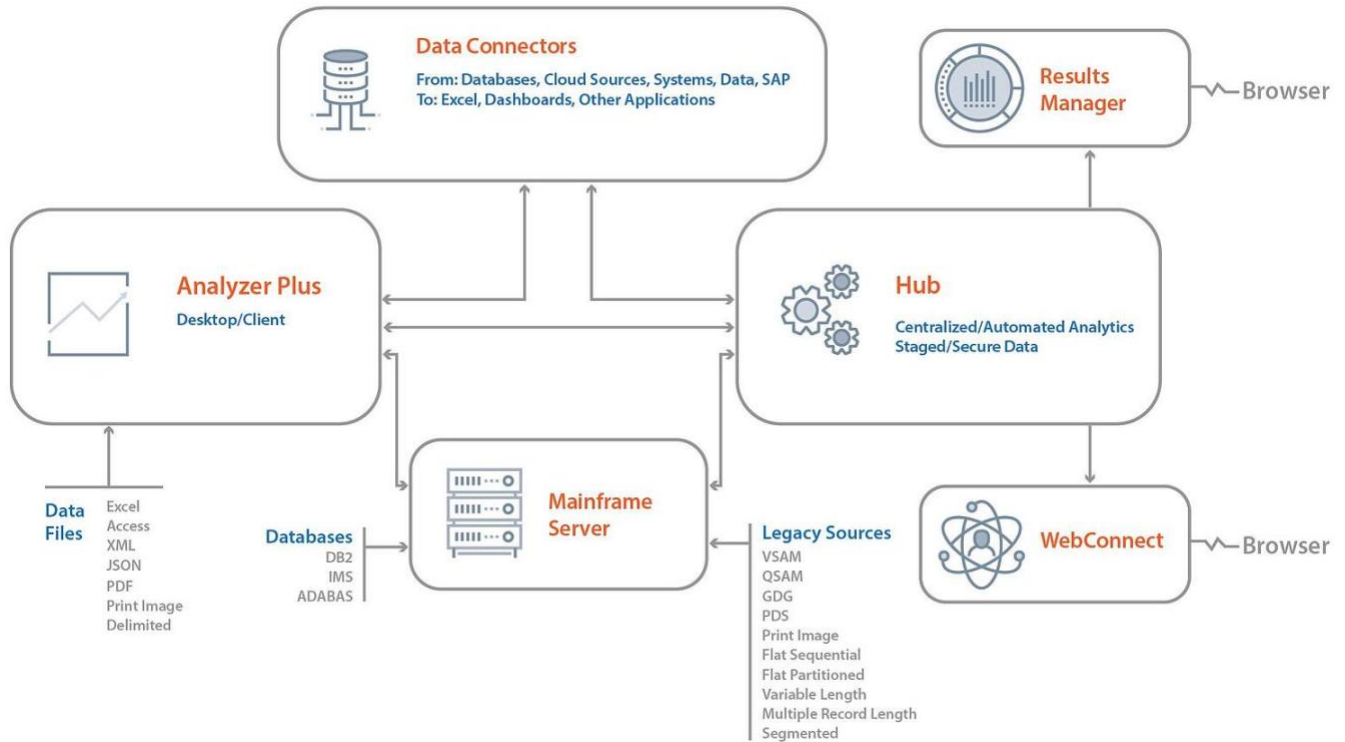

Power Your Apps
Comprehensive Analytics

Agile
Self-Service Analytics

Lean
Efficient Analytic Automation

Arbutus technology empowers you to use ALL of your data to gain better business insights at speeds you never thought possible.

Platform Overview

Access All Data

Access your Data: Big, Small, Complex, Disparate. Systems: Financial, Operational, IT. Platforms: On Premise, Cloud, PC, Mainframe.

Explore

Discover what data you have before you get started. Unlock new analytic opportunities based on what you find.

Verify & Prep

Ensure your data is accurate and complete. Consolidate, Normalize, Cleanse, Discover.

Analyze

Engineered for Analysis. Unlock the Power to ask any question of all your data and process at millions of records per second.

Communicate & Remediate

Systematically Manage Your Results. Share Your Findings across your organization within Arbutus or within your Data Visualization or other Applications.

Automate

Automate Your Analytics. Scheduled, Centralized, Continuous. Focus your efforts where they're needed the most

Our Technology Scales to Meet Your Needs

From Desktop Analytics to Continuous Monitoring ROI measured in days or weeks versus months or years. It's easy to get started and to expand as your needs evolve. Team Sharing and Time Saving capabilities at every stage.
